

Albion Park Public School

Works notification | 4 May 2026

Dear staff, parents and carers,

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

As part of our proactive maintenance schedule, we are replacing the bathroom ceiling in the girl's toilets in Building G at Albion Park Public School.

This area is known to contain bonded asbestos as listed on the School's Asbestos Management Plan.

Asbestos was used widely in Australian building materials before 1990. We manage the presence of asbestos in NSW public schools by maintaining an Asbestos Management Plan for each school and engaging independent hygienists for expert advice.

All work involving asbestos containing materials took place outside of school hours between Saturday 2 May 2026 and Sunday 3 May 2026, with safety measures such as PPE and air monitoring in place.

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures were in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

For more information about asbestos, please visit the [NSW Health website](#) or scan the QR code.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.

What makes Albion Park Public School special?

'We're proud of our dedicated staff and strong partnerships with families. Together, we ensure students feel valued and inspired to learn.' - Glenn Daniels, Principal of Albion Park Public School
