

# Anna Bay Public School

## Works notification

2 December 2022

Dear staff and parents/carers,

During work to relocate a smartboard at Anna Bay Public School on 25 November 2022, asbestos containing material was found in the wall of a withdrawal space in Block E. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

Safety measures and air monitoring were immediately put in place to ensure there is no risk to students, staff or the local community. As a precaution, the area has been cordoned off and will remain out of bounds to students and staff until remediation is completed.

The work will take place on Sunday 4 December 2022. All asbestos containing material will be removed outside of school hours in accordance with the advice of the independent hygienist.

This area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
