

Asquith Public School

Works notification | 4 December 2025

Dear staff, parents and carers,

New upgrades to bathroom facilities are currently underway at Asquith Public School.

Located near the play equipment in Building J, the enhanced bathroom facilities will feature new and improved lighting, increasing visibility for students.

To install the new lights, on Saturday 6 December 2025 contractors will be removing ceiling panels known to contain asbestos, as listed on the School Asbestos Management Plan.

Access to the area will be securely restricted for the duration of the works using temporary fencing. All asbestos removal work will be completed outside of school hours when no students or staff are present.

Once completed, an independent hygienist will be engaged to inspect the area, conduct testing and air monitoring. Once the hygienist clears the area to be reopened, the bathroom upgrade will resume.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We will keep the community updated.

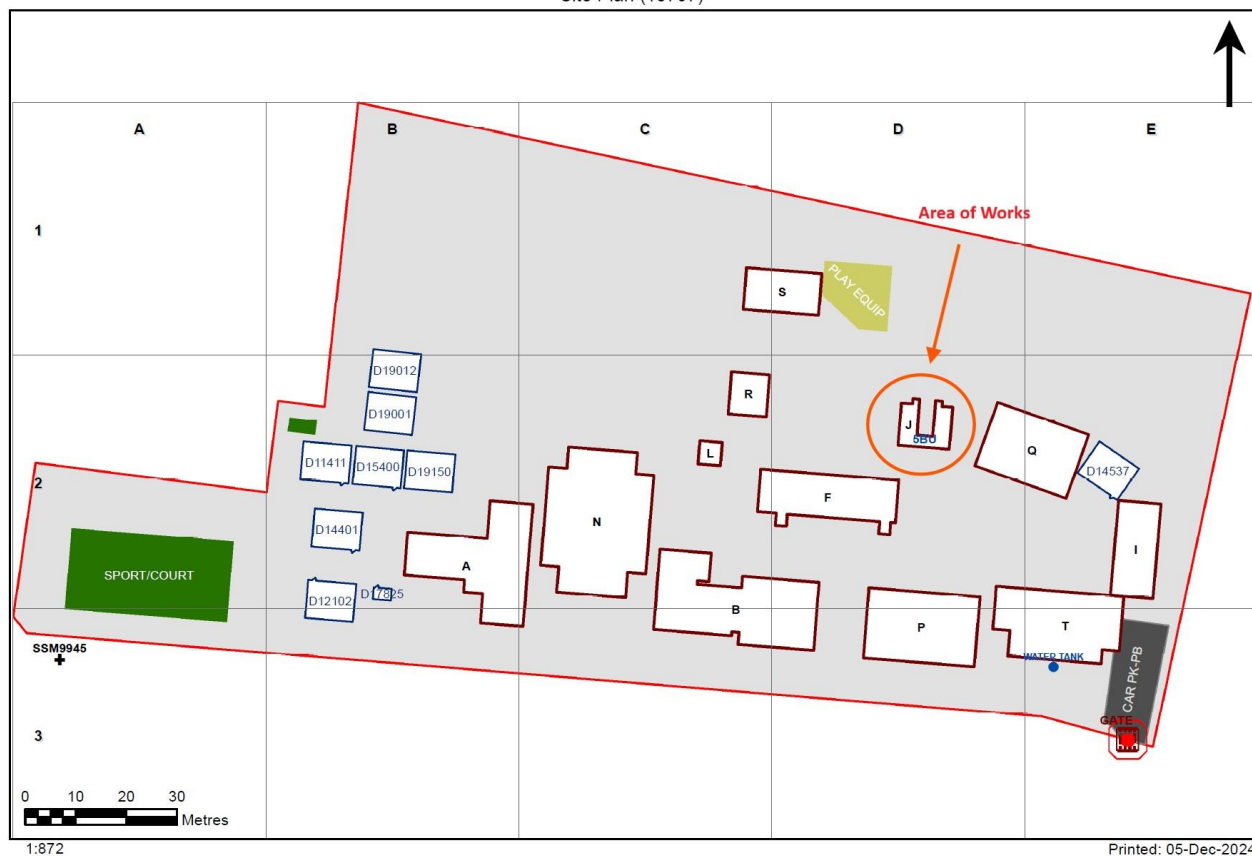

Thank you for your cooperation during this important work.

What makes Asquith Public School special?

At Asquith Public School, every child is welcomed into a safe, inclusive community where they're valued, supported and encouraged to thrive. A broad, high-quality education is delivered from Kindergarten to Year 6, from core learning to performing arts, sport, camps and beyond. With a dedicated teaching and wellbeing team, every student is guaranteed to receive the support they need to learn and grow into responsible, compassionate citizens.
