

Austral Public School upgrade

Works notification | 20 August 2026

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade Austral Public School.

Site establishment works from 24 August 2026

To prepare for Stage 2 of the upgrade of Austral Public School, site establishment will take place from Monday 24 August until early October 2026. The changes to school operations, including new entry gates, have been communicated to the school community.

Site establishment will include:

- Installation of banner mesh, timber hoarding, and temporary fencing and gates around the site to prevent public or school access, reduce disruption to the school community, and locate site services for the upgrade
- surveying the site
- removal of trees required to enable construction of Stage 2
- demolition of existing buildings, except for the preschool and Building I
- establishment of new pedestrian gates and concrete path for ease of access into the school through Edmondson Avenue.

All construction vehicles will access the site via a gate on Edmondson Avenue. Some existing fencing will be removed to allow for the entry of trucks and heavy machinery. This aims to prevent traffic congestion on Edmondson Avenue.

There will be no street or footpath closures during the above work. Traffic control will be in place when trucks are entering and exiting the school. Please see a map on the next page for further details.

A more detailed site map will be provided in coming weeks.

Working hours

The work will take place between 7 am and 6 pm Monday to Friday and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays.

Managing construction impacts

Construction can be disruptive, and we thank you for your patience while we complete this important school upgrade project. We work closely with the construction contractor throughout the project to manage impacts on the school and local community.

For more information about how we manage construction impacts on our projects, please scan the QR code or visit edu.nsw.link/ConstructionImpacts.
