

Bega Valley Public School

Works notification | 9 May 2023

Dear staff and parents/carers,

We are removing the maintenance shed at Bega Valley Public School. As part of this work, asbestos containing material within the ceiling eaves of the shed will need to be removed in preparation for demolition works.

The shed is cordoned off and within a construction site, and safety measures and monitoring put in place. It will remain out of bounds until the remediation and associated maintenance work is finished.

Work to remove the ceiling eaves will take place on Saturday 13 May 2023. All work involving asbestos containing materials will take place outside of school hours in accordance with the advice of the independent hygienist.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The shed will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the shed is demolished.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
