

# Birchgrove Public School

## Works notification | 15 December 2022

Dear staff and parents/carers,

School Infrastructure NSW has engaged a hygienist to undertake proactive inspections at Birchgrove Public School during the upcoming school holidays to identify potential asbestos containing material.

This is a routine inspection to update the school's asbestos register. Please be assured that there is no existing safety concern or risk.

Should any removal, repair or remediated work be needed as a result of this inspection, the work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work involving asbestos at NSW schools is completed by licensed and accredited independent asbestos contractors in strict accordance with all applicable legislation, regulations, policies and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority, and we will update the community if works take place after the inspection.

Thank you for your understanding during this important work.
