

Bobs Farm Public School

Works notification | 8 December 2025

Dear staff, parents and carers,

Further to the [works notification from 7 November 2025](#) regarding the drinking water quality test results for Bobs Farm Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to the bubblers in Building B, the toilet block, have been restored and can be used again.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
