

Bonville Public School

Works notification | 27 October 2025

Dear staff, parents and carers,

We are currently rebuilding covered pathways throughout Bonville Public School as well as replacing the internal and external walls of Building 1.

We will be removing ceiling sheets known to contain bonded asbestos, as listed on the school's asbestos register, in Building 1 during several weekends in Term 4.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

We will also be removing weather boards known to contain lead paint from the outside of Building 1.

Safety measures will be in place during the work including air monitoring, signage and workers wearing personal protective equipment.

All internal ceiling sheets and external weather boards scheduled to be removed are currently undisturbed and in good condition.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
