

# Broken Hill North Public School

## Works notification | 28 October 2024

We are providing you on update on the notification we issued on [20 September 2024](#).

The current power supply issues in the Broken Hill region have delayed the installation of the demountables at Broken Hill North Public School.

The demountable staff room and administration room will be available for occupancy on Tuesday 5 November. The temporary fencing around these demountables will be removed once installation is complete to allow staff access, however fencing will remain around the demountable staff toilets.

The demountable staff toilets will be available for occupancy on Tuesday 12 November. We will begin constructing the stairs and landings of the demountables next week.

---

### Distributed 20 September 2024

Dear staff, parents and carers,

We are writing to provide an update on the remediation work of Building A at Broken Hill North Public School.

In addition to the works notification issued on 22 August 2024, installation of the demountable building near Building D is continuing and is anticipated to be operational during Term 4 2024.

Following consultation with school leadership, we will be adding 2 additional demountables — providing staffroom space and staff toilet facilities.

Planning is underway for the installation.

We will keep the community updated with the latest information.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
