

# Burren Junction Public School

## Works notification | 6 September 2024

Dear staff, parents and carers,

Further to the [Works Notification on 7 June](#) regarding the drinking water quality test results for Burren Junction Public School, remediation work has been completed by a qualified and accredited tradesperson, following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has confirmed that the results meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the tap outlets in the following locations has been restored and can be used again by students and staff:

- sink outlets in the boys' and girls' toilets in Building C
- external handwash basin in Building F
- practical activities area sink in the library.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
