

Cambewarra Public School

Works notification | 3 July 2024

Dear staff, parents and carers,

We are preparing for the demountable replacement work at Cambewarra Public School.

Throughout this process we will be working with known asbestos-containing materials as listed on the school's asbestos register, which includes:

- Material in the electrical board in the Administration building.
- Removal of the encapsulated stairs of the demountables.
- Removal of specific known areas inside the demountables such as ceiling and wall cavities, and window putty.

The area is currently fenced off with no access to students and staff.

Safety measures will be in place while work is being done.

All work involving asbestos will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines including work, health and safety laws and the NSW Department of Education's Asbestos Management Plan.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
