

Cammeray Public School

Works notification | 29 March 2023

Dear staff and parents/carers,

As part of planning for roof replacement works at Cammeray Public School, some lead containing material was identified within the roof cavity of Building A. The roof cavity is also on the school's asbestos register as containing assumed asbestos materials.

An independent occupational hygienist has confirmed the building remains safe for general occupation as the affected areas are located within the roof cavities, sealed off and therefore inaccessible to students, staff and visitors.

Work to remediate the materials will take place between Monday 3 April and Friday 14 April 2023, outside school hours. The remediation work has been scheduled in consultation with school leadership to minimise disruption to teaching and learning.

No work will be carried out on Saturday 8 April and Sunday 9 April 2023 due to the school being used by the community.

Safety measures, including air monitoring, will be in place and all work zones will be out of bounds while work is carried out.

All work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Affected areas will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate. Following this work, further planning for roof replacement works will continue.

Thank you for your cooperation during this important work.
