

# Cawdor Public School

## Works notification | 28 May 2025

Dear staff, parents and carers,

Further to the notification we sent you on [28 February 2025](#) regarding the drinking water quality test results for Cawdor Public School, remediation work has been completed.

The remediation work included replacing the filtration system pump, flushing the pipes and replacing the tank water and has been undertaken by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the impacted tap outlet by an independent hygienist has returned results which meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the tap outlet has been restored and can continue to be used by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
