

Clovelly Public School

Works notification | 23 May 2023

Dear staff and parents/carers,

We are upgrading the hall in Building 4 at Clovelly Public School. As part of excavation works, asbestos containing material was found in the earth under the concrete slab and landings.

As a precaution, excavation work has stopped, and the area cordoned off and encapsulated with plastic sheeting within the construction zone. Additional safety measures and monitoring will be put in place before remediation work starts.

Work to remediate the area will take place on Saturday 27 May 2023. All work involving asbestos containing materials will take place outside of school hours.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the contractor will receive a clearance certificate before construction work resumes in the area.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
