

Conargo Public School

Works notification | 16 June 2025

Dear staff, parents and carers,

Further to the works notification from [20 March 2025](#) regarding the drinking water quality tests results for Conargo Public School, remediation work is continuing. Work is being undertaken by a qualified and accredited tradesperson, following advice provided by an independent hygienist.

Staff kitchen sink near the library

Re-testing of the impacted tap outlet in the staff kitchen beside the library has detected exceedances of lead and bacteria. The re-testing was undertaken by an independent hygienist.

As a precautionary safety measure, access to the tap outlets in the staff kitchen will continue to be restricted. Signage is in place to remind staff not to access the tap. We are working with an independent hygienist to undertake the further plumbing remediation work required.

All work will be carried out by qualified contractors, and we will undertake additional testing at the school following the work to ensure the water can continue to be used.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
