

Conargo Public School

Works notification | 05 February 2026

Dear staff, parents, and carers,

Further to the works notification sent on [Wednesday 5 November 2025](#) regarding the drinking water quality test results for Conargo Public School, we are pleased to inform you that remediation work on the taps to the sink of Building D, Building F and bubblers located under the shade structure has been completed by a qualified and accredited contractor.

Re-testing of the affected water supply outlets by the independent hygienist has confirmed that water quality now meets the requirements of the [Australian Drinking Water Guidelines](#).

Access to the water supply outlets has been restored and can now be safely used by students and staff.

The health, safety, and wellbeing of all members of our school and local community remain our highest priorities.

Thank you for your cooperation and understanding during this important work.

If you have any questions about this process, please contact the NSW Department of Education.
