

# Coorabell Public School

## Works notification | 28 May 2025

Dear staff, parents, and carers,

Following the works notification [earlier this term](#) regarding drinking water quality test results for Coorabell Public School, remediation work has now been completed by a qualified and accredited tradesperson.

Re-testing of the affected tap outlets by an independent hygienist has confirmed the results meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the following tap outlets has now been restored:

- the handwashing and kitchen sinks in the Canteen
- the girls' toilets next to the Library Building
- the library office sink and external basin
- the practical activities area in the western classroom in Building E
- the practical activities area in the southeast demountable classroom.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
