

# Cooranbong Public School

## Works notification | 2 March 2026

Dear staff parents and carers,

Early this morning, Monday 2 March 2026, we were alerted to an unplanned water outage at Cooranbong Public School.

We understand that this outage extends beyond the school site and we are working with Hunter Water to identify and resolve the issue.

The school is open for learning and teaching. Bottled drinking water will be supplied for students and staff and a plumber will be on site to support manual flushing of toilet facilities.

If you have any questions about the water outage, please contact Hunter Water on 1300 657 657.

If you have a new question about how water is being managed at the school, please contact School Infrastructure on 1300 482 651 or at [schoolinfrastructure@det.nsw.edu.au](mailto:schoolinfrastructure@det.nsw.edu.au).
