

# Cooranbong Public School

## Works notification | 30 May 2024

Dear staff and parents/carers,

During a recent routine site inspection on 13 May 2024, mould was detected in the hall/library (Building J) at Cooranbong Public School. Building J was immediately isolated from students and staff, who were redirected to use other areas.

An independent hygienist was engaged to inspect the building, organise testing and provide advice.

A specialist cleaning contractor has been engaged to undertake an environmental clean of the area between 4–18 June 2024. During this time contractors will also investigate and determine repairs required to remove the cause of the mould growth. Planned works is currently being prioritised to resolve the issue.

The building will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the area is reopened.

All work involving hazardous materials will take place with additional safety measures put in place while work is being done. All inspections and remediation works will be conducted in accordance with recommendations from the independent hygienist.

The health, safety, and wellbeing of the school and local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
