

Cooranbong Public School

Works notification | 6 February 2025

Dear staff, parents and carers,

As part of our regular maintenance, we have removed and repaired external eaves and soffit linings in the library (Building B) at Cooranbong Public School.

Testing has confirmed the material in the external eaves of this building contains bonded asbestos.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

Work to replace the eaves took place during the recent school holidays on Wednesday 29 January 2025.

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed asbestos contractors and monitored by independent hygienists.

Following the work, the area was inspected by the independent hygienist and clearance was provided.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
