

Dareton Public School

Works notification | 22 August 2025

Dear staff, parents and carers,

We are writing to advise you of planned works to replace poles near Building G at Dareton Public School. This work will take place outside of school hours on Saturday 6 September 2025 (weather permitting). Construction work will take place from 7 am – 5 pm.

To ensure the safety of students, staff and visitors, the area has been temporary fenced off during the replacement period.

The affected area is known to contain bonded (non-friable) asbestos, as documented in the school's Site-Specific Asbestos Management Plan (SSAMP).

Where asbestos-contained materials are identified, removal will be carried out by licensed contractors under strict safety controls.

A licensed asbestos removalist and an independent hygienist will be on site on Sunday 7 September 2025 to inspect that any asbestos identified has been removed. A clearance certificate will be issued before the area is reopened for use.

Air monitoring will be conducted throughout the removal process, and results will be assessed against SafeWork NSW guidelines. All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done.

The health, safety and wellbeing of our students, staff and school community remain our highest priority.

If you have any questions or concerns, please contact the NSW Department of Education using the contact details below.

Thank you for your continued cooperation during this important work.
