

# Leeville Public School

## Works notification | 23 May 2025

Dear staff, parents, and carers,

On [18 March 2025](#) we notified you about drinking water quality test results for Leeville Public School. We are pleased to advise remediation work has now been completed by a qualified and accredited tradesperson.

Re-testing of the affected tap outlets by an independent hygienist has confirmed the results meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the following tap outlets has now been restored:

- the sink in the practical activities area in Building A
- hand basins in the girls' toilets in Building B.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
