

Dubbo North Public School

Works notification | 23 May 2023

Dear staff and parents/carers,

We are replacing the external eave and gable linings of Buildings C, D, E, F, G, H, I, J and K at Dubbo North Public School. As part of this work asbestos containing material will need to be removed.

The areas are being safely used at present as the eave and gable linings are undisturbed and out of reach to students and staff.

The outside areas will be cordoned off one-by-one before the work starts, and safety measures and monitoring put in place.

Work to remove eave and gable linings will take place after school hours between Wednesday 24 May and Thursday 1 June 2023. All work involving asbestos containing materials will take place outside of school hours.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The buildings will be inspected by an independent hygienist to confirm they have been fully remediated, and the school will receive a clearance certificate before each area is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
