

Dubbo North Public School

School holiday works notification - Autumn | 2025

Dear staff, parents and carers,

We completed scheduled work to replace the cladding on the outside of Building C at Dubbo North Public School during the autumn school holidays.

While completing this work we removed known bonded asbestos contained in the cladding as identified in the school's asbestos register.

The area was inspected by the independent hygienist to confirm it was fully remediated, and a clearance certificate was issued allowing the area to be reopened.

During the school holidays, a Building F classroom window was broken. The window putty was tested by an independent hygienist with results confirming the presence of bonded asbestos.

The window has been covered with plywood and the room has been isolated with classes relocated to another classroom on the school site.

Asbestos removal and window replacement work will be completed on Wednesday 5 May 2025 outside of school hours.

The room will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before it is reopened.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work is being done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures including temporary fencing and air monitoring will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The health, safety, and wellbeing of all members of our school and the local community are our highest priority.

Thank you for your cooperation during this important work.
