

Dudley Public School

Works notification | 11 May 2023

Dear staff and parents/carers,

As previously notified, we are replacing the roofing in Building B and C at Dudley Public School. Roofing work started during the April school holidays and it involves working with asbestos containing material in the roof cavity.

Work to remove asbestos containing material in the roof cavity will continue on Saturday 13 May 2023, and if required, on Saturday 20 May 2023. All work involving asbestos containing materials will take place outside of school hours.

The area remains cordoned off within the work site and air monitoring in place since the work started.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The roof will be inspected by an independent hygienist to confirm it has been fully remediated, and the contractors will receive a clearance certificate before the roof replacement work can continue.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
