

# Dundurrabin Public School

## Works notification | 7 August 2025

Dear staff, parents and carers,

We will be refurbishing the student and staff toilets in Building C at Dundurrabin Public School.

This work will provide the school with a new accessible toilet and shower facilities in Building C. Refurbishment works are expected to finish this year.

To prepare for this work, we will be demolishing part of the existing toilet building and removing the partition walls and eave linings which are known to contain bonded asbestos as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work involving asbestos-containing materials will be completed outside of school hours on Saturday 16 August and Sunday 17 August 2025.

These toilets will stay fenced off within a construction zone until all refurbishments are finished. Alternative toilets will be available for students and staff to use during this work. Student toilets will be located between buildings B and G. Staff toilets will be located in the existing demountable toilet south of Building C.

During the asbestos removal work there will be air monitoring, temporary fencing, signage and workers wearing personal protective equipment at the school.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
