

Ettalong Public School

Works notification | 23 October 2024

Dear staff, parents and carers,

During a recent inspection, damage to paint on the southern and eastern-facing external walls of Building F were identified at Ettalong Public School. Testing conducted by an independent hygienist received on 17 October 2024 has confirmed that this paint contains lead. Following this testing result these external areas were fenced off and isolated from students and staff.

Work to remove the damaged lead paint and reprime the walls is scheduled to take place on Saturday 26 October 2024.

All work will be done in accordance with work, health and safety laws. All work will be completed by licensed contractors and monitored by an independent hygienist.

The external areas will be inspected by the independent hygienist and clearance will be issued before the areas are reopened.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
