

Ettalong Public School

Works notification | 28 May 2025

Dear staff, parents and carers,

We are refurbishing the Araluen Building (Block H) student toilets.

The wall linings are known to contain bonded asbestos as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work involving asbestos-containing materials will take place outside of school hours on Sunday 1 June 2025 and will be completed the same day.

During the work there will be air monitoring and temporary fencing at the school.

All work involving asbestos-containing material will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

The toilets will be inspected by an independent hygienist and a clearance certificate issued before they are reopened.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
