

Eungai Public School

Works notification | 2 June 2025

Dear staff, parents and carers,

On Tuesday [4 March 2025](#) we informed you about work to replace broken fibro sheeting in a storage shed at Eungai Public School.

The fibro sheeting was replaced, however when structural work continued, more fibro sheeting was found and suspected to contain asbestos.

Since then, the shed has remained secured. Plywood is boarded over the entrance to make it inaccessible.

We'd like to inform you that we are replacing the existing shed with a new steel kit shed.

Stage 1 – asbestos and shed removal

The first stage involves removing the existing shed.

This includes removing bonded asbestos sheeting. The work is scheduled for Saturday 14 June 2025, between the hours of 7 am and 4 pm.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

Safety measures will be in place while work is being done.

All work will be completed by licensed asbestos contractors and monitored by independent hygienists with a clearance certificate issued before stage 2 can start.

Stage 2 – shed replacement

The second stage of work involves installing the new shed. This is still being organised.

We will continue you to keep the community informed.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
