

Euston Public School

School holiday works notification - Autumn | 2025

Dear staff, parents and carers,

We completed scheduled work to replace the carpets in 2 classrooms in Building A at Euston Public School during the Autumn School Holidays.

During this work we removed known bonded asbestos in the vinyl tiles underneath the carpet as identified in the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures including air monitoring were in place while work was done. All work was completed by licensed asbestos contractors and inspected by independent hygienists.

The area was inspected by the independent hygienist to confirm it was fully remediated, and a clearance certificate was issued allowing the area to be reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priority.
