

Gladesville Public School

Works notification | 18 March 2026

Dear staff, parents and carers,

The Heritage Stonework Restoration Program helps care for historic school buildings across NSW. As part of our responsibilities under Section 170 of the Heritage Act 1977, we work to identify, protect and maintain these important heritage buildings for current and future generations.

Following [our recent update](#), construction work is continuing in Building B, also known as the Outside of School Hours (OOSH) Building.

The work will include replacement of some bonded asbestos ceilings in Building B, as listed on the Schools Asbestos Management Plan (SAMP). The ceilings will be replaced in the OOSH kitchen and main area, as well as the OOSH office.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work to remove the asbestos is scheduled to take place on Saturday 21 March 2026 between 8 am and 4 pm, in line with the NSW Environment Protection Authority guidelines.

The area is currently cordoned off due to the heritage restoration works and additional safety measures will be put in place.

Air monitoring will be in place during all works and access to the area will remain restricted. A clearance certificate will be provided by an independent hygienist before the area is reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding and support during this important work.
