Gladesville Public School

Works notification | 27 November 2025

Dear staff, parents, carers and neighbours,

In advance of heritage stoneworks restoration activities on Building B, which will start at Gladesville Public School at the end of Term 4 2025, stonemasons require access to the roof to measure chimney stones.

To secure safe access to the roof, a small portable scaffold will be placed outside Building B on Saturday 29 November 2025 for the duration of the day. No students or staff will be onsite during the works.

Safety measures will be put in place including the installation of temporary fencing and a spotter.

Thank you to our students, staff, families and neighbours for your patience and support as we carry out this task ahead of our restoration work.

Together, we're helping ensure Gladesville Public School's heritage buildings remain a proud symbol of learning and community for generations to come.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

We will keep the community updated.
