

Gladesville Public School

Works notification | 5 June 2026

Dear staff, parents and carers,

Caring for our school's history

The Heritage Stonework Restoration Program helps care for historic school buildings across NSW. As part of our responsibilities under Section 170 of the *Heritage Act 1977*, we work to identify, protect and maintain these important heritage buildings for current and future generations.

We are writing to provide an update on the Heritage Stonework Restoration currently underway at Building B, also known as the Outside of School Hours (OOSH) at Gladesville Public School.

OOSH update

Firstly, a huge thank you to GOOSH for relocating the OOSH service to the hall for the duration of the project. This has allowed the works to progress more efficiently, effectively and safely and has also given us the opportunity to complete additional improvements within the building while it is unoccupied.

As previously communicated on [18 March 2026](#), these additional works included removing asbestos-containing ceiling materials from the office and kitchen areas. We are also planning to repaint these rooms before the OOSH service returns to the building.

Heritage stoneworks

Following [our recent update](#), work is progressing well and several key restoration activities have now been completed, including:

- paint removal from external walls on the northern and western sides of building
- repairs to masonry cracks
- structural strengthening of the roof and chimney
- replacement of damaged chimney stones and installation of new chimney pots
- removal of air conditioners in preparation for ducted air conditioning
- removal of timber flooring in office (BR0009) to allow for installation of subfloor mechanical ventilation for improved airflow
- removal of render in the office (BR0009)
- replacement of downpipes and guttering.

Works commencing in Term 2 include:

- installation of new flooring in the office (BR0009)
- upgrades to part of the outdoor roof to improve rainwater runoff
- re-oiling of the veranda deck boards
- repainting of external timber elements
- bird-proofing of chimneys.

Heritage stoneworks at Gladesville Public School

Mortar repointing

New ceiling installation

Masonry paint removal

Thank you

Thank you to our students, staff, families and neighbours for your patience and support as we carry out this important restoration.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Together, we're helping ensure Gladesville Public School's heritage buildings remain a proud symbol of learning and community for generations to come.

Thank you for your understanding and support during this important work.
