Gladesville Public School
Works notification | 5 March 2026

Dear staff, parents and carers,

The Heritage Stonework Restoration Program helps care for historic school buildings across NSW. As part of our responsibilities under Section 170 of the *Heritage Act 1977*, we work to identify, protect and maintain these important heritage buildings for current and future generations.

We are writing to provide an update on the Heritage Stonework Restoration currently underway at Building B, also known as the Outside of School Hours (OOSH) Building.

OOSH relocation update

As outlined in our notification on 15 December 2025, the OOSH service relocated to the school hall at the start of the vacation program to allow roof and roof cavity works to be completed safely. We had planned for the OOSH service to return to Building B this week.

Working closely with the OOSH provider, we have agreed that OOSH will remain in the school hall for the remainder of the project. Keeping OOSH in the hall means additional interior restoration works can be completed without interruption, and the OOSH program can continue to run smoothly without any disruption to families.

OOSH families should continue to enter the school via Linsey Street, next to the school hall.

Updated timeline

We are pleased to confirm the project is on track for early completion by 31 August 2026.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you to the OOSH team, our students, staff, families and neighbours for your continued patience and support.

Together, we're helping ensure Gladesville Public School's heritage buildings remain a proud symbol of learning and community for generations to come.
