

Glenorie Public School

Works notification | 21 July 2025

Dear staff, parents, carers and neighbours,

As we notified on 4 July 2025 (below), we isolated an outdoor area, located between the front fence on Old Northern Road and Building B at Glenorie Public School due to a sewage leak.

An exclusion zone was installed by Sydney Water. As a precaution and based on advice from the independent hygienist and Sydney Water, we have extended the exclusion zone affected by the sewage leak for areas of soil to be excavated.

There will be no changes to school operations or to the outside of school hours (OOSH) service. School and building access, drop-off zones and staff car parking are not affected.

Following soil excavation work, fresh soil and turf will be laid within the grassed area in coming days. This area will remain cordoned off until the turf has been established.

Following this work the hygienist will inspect and clear the outdoor area before it is reopened.

Earlier in July, Sydney Water repaired the broken pipe, cleaned all hard surfaces and added fresh topsoil.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Notification issued 4 July 2025

Dear staff, parents, carers and neighbours,

Following a Sydney Water sewerage leak on 2 July 2025, we isolated an outdoor area, located between the front fence on Old Northern Road and Building B at Glenorie Public School.

A qualified plumber was engaged to undertake repairs and Sydney Water was contacted to investigate further. An exclusion zone has been installed by Sydney Water.

Sydney Water has repaired the broken pipe that caused the leak and is in the process of cleaning all hard surfaces and adding fresh topsoil within the exclusion zone. As a precaution an independent hygienist has been engaged by the department to test the soil.

The area will remain cordoned off until the soil has been tested and the hygienist has advised on any soil remediation required. Once this work has been done the hygienist will inspect and clear the area before it is reopened.

There will be no changes to the outside of school hours (OOSH) and vacation care service which will be running as usual during the upcoming winter holidays.

Drop-off zones and staff car parking for the school and OOSH community are not affected.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.

If you have any questions about this work, please contact the NSW Department of Education on the details below.
