

Glen William Public School

Works notification

22 June 2022

Dear staff and parents/carers,

Upcoming maintenance works at Glen William Public School will require working with lead containing material. The material is located in the roof of a demountable building (OS 601 148 77).

Safety measures and monitoring have been put in place to ensure there is no risk to students, staff or the local community. As a precaution, the area has been cordoned off and will remain out of bounds to students and staff until remediation is completed.

This material will be remediated in accordance with SafeWork NSW regulations. All work will be completed in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is scheduled to be remediated during the school holidays between Monday 4 July 2022 and Saturday 9 July 2022.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

The NSW Government is investing \$60 million to provide roof repairs and replacements to priority schools across rural and regional NSW.

Thank you for your cooperation during this important work.
