

# Goonengerry Public School

## Works notification | 23 July 2025

Dear staff, parents and carers,

In [Autumn 2025](#), we notified you regarding the drinking water quality test results for Goonengerry Public School. We are pleased to advise remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the tap outlets in the following locations has been restored and can be used again by students and staff:

- Tank 1 located near Building A
- the bubblers in Building A
- the external tap in Building E
- tap outlets in the cleaner's storeroom, accessible toilet sink, and girls' and boys' toilet sinks in Building E
- the external tap in Building F.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
