

Goulburn Public School

Works notification | 11 September 2026

Dear staff, parents, carers and neighbours,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

As part of our ongoing efforts to manage the local environment and protect the school grounds, a humane rabbit control using approved methods will take place on school property. This work is taking place to stop rabbits causing damage to the environment and school grounds.

We had originally intended to complete this work during winter; however, it needed to be rescheduled. All work will take place **outside of school hours on Friday 11 September 2026**, to ensure that no staff or students will be exposed to odours from spraying. All work will be undertaken by a licensed pest controller.

Measures will be in place to prevent any local animals or protected species from ingesting the product. The treatment areas will be clearly marked with labels and signage to ensure the safety of the community and neighbours.

During this time, we ask neighbours to please monitor their pets and animals to ensure they cannot enter the treatment areas.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding during this important work.
