

Goulburn Public School

Works notification | 24 July 2025

Dear staff, parents and carers,

We are providing an update on the ongoing remediation work of Building B at Goulburn Public School that we began at the start of April 2025.

Work continued throughout Term 2 2025 and included:

- removal of flooring in the hallway, 2 storerooms, 2 offices and one classroom
- renewal of all drainage points
- removal of non-functioning water tanks
- laying of new concrete.

An independent hygienist inspected Building B and confirmed the mould was fully remediated.

Term 3 2025 work

During term 3 2025 we will undertake roofing repairs and replacement of downpipes on Building B.

We have begun the procurement process to appoint a contractor who will complete the installation of new flooring, carpet, vinyl and a new underfloor ventilation system.

Building B will remain inaccessible until this work is completed and classes will continue operating from alternate learning spaces within the school.

The school hall will continue to be used as storage while this work is being completed.

The School as Community Centre will continue to use both the hall and rainbow shed (Building K).

Adverse weather during Term 2 and the Winter School Holidays has delayed the completion of some of the work.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.
