

# Gresford Public School

## Works notification | 21 November 2024

Dear staff, parents and carers,

As part of planned work at Gresford Public School, we will be removing the wall and ceiling linings in several staffrooms, a storeroom and a corridor in the Administration Building (Building E). This work is being done to check the building's underlying structures for any repairs required. Material in the wall and ceiling linings of these rooms are known to contain bonded asbestos as listed on the school's asbestos register.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

Removal work is scheduled to take place over 2 weekends on Saturday 30 November - Sunday 1 December 2024 and Saturday 7 December - Sunday 8 December 2024.

Rooms will not need to be isolated during school hours as this work will take place over the weekends with clearance provided to continue using the rooms as required in between these periods.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
