

Griffith Public School

Works notification | 20 November 2025

Dear staff, parents and carers,

On Tuesday 18 November 2025, contractors identified bonded asbestos during wall tiling works in the staff toilet in Building L at Griffith Public School.

This staff toilet is known to contain bonded asbestos, as listed on the school's asbestos register.

The affected area will be temporarily taped off and isolated until the work is completed. Staff are advised to use alternative toilets within the school.

The asbestos will be removed on Saturday 22 November 2025. All work involving asbestos-containing materials will take place outside of school hours.

NSW Health advises that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged."

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist who will issue a clearance certificate.

The health, safety and wellbeing of our students, staff and school community are our highest priorities. We will keep you updated.

If you have any questions or concerns, please contact the NSW Department of Education using the contact details below.

Thank you for your continued cooperation during this important work.
