

Guildford Public School

Works notification | 27 June 2023

Dear staff and parents/carers,

During inspections to identify illegally dumped rubbish over the back school fence, fragments of asbestos containing material were found on the ground found near the play equipment and demountable classroom at Guildford Public School.

The area was immediately cordoned to keep students and staff safe. Safety measures and monitoring were in place and the area remained out of bounds to anyone on site until the asbestos removal and associated maintenance work was finished.

Work to remove the material took place after school hours on Saturday 24 June 2023.

The area was remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The hygienist inspected the area to confirm it had been fully remediated, and the school received a clearance certificate before the area was reopened to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
