

Hanwood Public School

Works notification | 9 May 2023

Dear staff and parents/carers,

We are upgrading the electrical boards at Hanwood Public School. This work will involve working with asbestos containing material in the backing of the board on the external wall of Building D.

The area will be cordoned off before the work starts, and safety measures and monitoring put in place.

Work to remove the electrical board will take place on Saturday 20 May and Sunday 21 May 2023. All work involving asbestos containing materials will take place outside of school hours in place before the work starts in accordance with the advice of the independent hygienist.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before the area is reopened to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
