

Hinton Public School

Works notification | 22 March 2023

Dear staff and parents/carers,

Further to our notification distributed on 9 February 2023, roof replacement work is continuing at Hinton Public School. As part of the roof replacement, external roof linings in Building H contain asbestos and will need to be removed.

The external linings are on the school's asbestos register. The roof area is inaccessible to students, staff, and visitors.

The material will be removed on Saturday 1 April 2023. All works involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before works start.

The area will be cordoned off before works start, and it will remain out of bounds to students and staff until the removal and associated roof maintenance work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the roof replacement work can continue.

The health, safety and wellbeing of the school and local community is our highest priority. Thank you for your cooperation during this important work.
