

# Telarah Public School

## Works notification | 8 December 2025

Dear staff, parents and carers,

We are pleased to advise we are refurbishing and repurposing a classroom in Building K at Telarah Public School into a support unit.

During this work we will be replacing the internal wall lining, known to contain bonded asbestos. The material is currently undisturbed and in good condition.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”

A hygienist will be present throughout the demolition and removal process. Removal of the internal wall lining will take place on Saturday 6 and Sunday 7 December 2025 between the hours of 8 am to 4 pm.

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your understanding during this important work.
