

Iona Public School

Works notification | 14 June 2023

Dear staff and parents/carers,

We are replacing the piers and refurbishing the flooring in a section of Building D at Iona Public School. This work will involve working with known asbestos containing material in the wall and ceiling of a staff room and adjacent toilet.

The rooms are being safely used at present as the asbestos material is undisturbed.

Work to remove asbestos material will take place between Saturday 17 June and Monday 19 June 2023. All work involving asbestos containing material will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The rooms will be inspected by an independent hygienist to confirm they have been fully remediated, and the contractor will receive a clearance certificate before work to replace the piers and refurbish the flooring continues.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
