

Iona Public School

Works notification

6 September 2022

Dear staff and parents/carers,

Following investigations at Iona Public School following the recent flooding at the school, traces of sewage was found in grounds.

The Department of Education engaged an independent occupational hygienist to assess the site and it was confirmed that some sections of the playground, the oval, and the sports court were affected.

The affected areas have been cordoned off since the beginning of Term 3 and we are currently working with the independent occupational hygienist to confirm the required remediation works.

This area will be remediated in accordance with SafeWork NSW regulations and monitored by occupational hygienists in strict accordance with all applicable legislation, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is re-open to students and staff.

The health, safety, and well-being of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
