

Jiggi Public School

Works notification | 31 October 2025

Dear staff, parents and carers,

Further to the works notification from [19 September 2025](#) regarding the drinking water quality test results for Jiggi Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to these water outlets have been restored and can be used again:

- the practical activities sink in Building A
- the canteen sink in Building B
- the sink in the Library building.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
