

# Jilliby Public School

## Works notification | 14 August 2024

Dear staff, parents, and carers,

On 13 August 2024, mould was detected in 2 storerooms – one in the library and the other in the Administration Building – at Jilliby Public School.

The rooms were isolated from students and staff. An independent hygienist was engaged to undertake air monitoring and surface sampling and provide remediation advice.

Once the remediation report is received from the hygienist, a specialist cleaning contractor will conduct environmental cleaning of the storerooms and remove any impacted materials.

Following the work, the independent hygienist will inspect the 2 storerooms to ensure all affected areas have been fully remediated before they are reopened.

All work involving hazardous materials will take place with additional safety measures and air monitoring put in place while work is being done. All inspections and remediation works will be conducted in accordance with recommendations from the independent hygienist.

The health, safety, and wellbeing of the school and local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
