

Jindabyne Central School

Works notification | 12 February 2024

Dear staff, parents and carers,

Last week we found two damaged wall sheets on the shed southeast of the play equipment on the western boundary of the school grounds at Jindabyne Central School (Building N).

The wall sheeting material is known to contain asbestos, as per the school's asbestos register. The damaged areas have been covered and made secure.

Work to remediate these wall sheets will take place on Saturday 24 February 2024. All work involving asbestos containing materials will be done outside of school hours.

The area will be cordoned off before the work starts, with additional safety measures and monitoring put in place.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The building will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate when complete.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
